**Terry Silverlight Review by Glenn Astarita**

Drummer Terry Silverlight burst onto the jazz-fusion scene in the 1970s, appearing with his brother, keyboardist **Barry Miles**, on several noteworthy recordings. Basically, **Silverlight** is a powerful drummer who possesses an enviable technique while also enjoying a fruitful career as a first-call session man. And besides stints with well-known artists such as guitarist **George Benson**, singer/songwriter **Roberta Flack**, vocalist **Mel Tormé**, saxophonist **Eric Kloss**, and others, **Silverlight** has attained gainful employment writing and arranging for television. On this 1997 release, the drummer utilizes his studio expertise along with the assistance of a few special guests for a sprightly set consisting of contemporary, or perhaps radio-friendly, jazz-based themes amid a few blistering drum patterns performed atop his imaginative synth programming. **Silverlight** receives sympathetic support from saxophonists **Bob Kenmotsu**, **Danny Wilensky**, and someone who is referred to as Redwinged Sparrow. Ultimately, this recording is all about silky smooth soul-drenched lines, breezy motifs, layered keys, and lightly woven soundscapes as **Silverlight**'s compositions boast radiant melodies and memorable hooks.
